

MARYLAND MEDICAID PHARMACY PROGRAM

No. 170
December 20, 2017

ADVISORY

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Department of Health and Mental Hygiene's (DHMH) **Maryland Medicaid Pharmacy Program** (MMPP) has developed the **Maryland Medicaid Pharmacy Program Advisory**. To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations. It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via DHMH, please contact the MMPP representative at 410-767-1455.

Maryland's Preferred Drug List - January 1, 2017

Generic vs. Brand Status on Maryland's Preferred Drug List

Medicaid's Preferred Drug List, encompassing about 1700 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form (<http://mmcp.dhmh.maryland.gov/pap/docs/Maryland%20Medwatch%20Form.pdf>). The State's clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA.

The Maryland Medicaid Pharmacy Program (MMPP) wants to alert you to changes in the exceptions to this rule that is included in the attached updated Preferred Drug List (PDL) that is effective January 1, 2017. Brand Nasonex® is no longer preferred over its generic (mometasone nasal spray). Brand Kapvay® is now preferred over its generic equivalent (clonidine ER) and brand Pulmicort Respules® 1mg/2ml is now preferred over its generic (budesonide). All strengths of Pulmicort Respules® are now preferred. In addition, this PDL includes one (1) new class of drugs not previously reviewed: Ophthalmics, Anti-Inflammatory/Immunomodulators.

This PDL also contains changes in the Tier status of two drugs within the Antipsychotic class. Aripiprazole (tablets and ODT) and olanzapine (tablets, ODT and IM) have been moved from 2nd Tier to 1st Tier. Please refer to our website for a complete list of the PDL at the following link:
<https://mmcp.dhmh.maryland.gov/pap/Pages/druglist.aspx>

Not All Generics are Preferred

In order for the State to enhance the benefit of the PDL, in some instances the multisource brand name drug is Preferred over its generic equivalent, because the branded drug is less costly than its generic counterpart. This happens most often in cases of newly released generics. When manufacturer rebates are taken into consideration, the brand name drug has a lower net cost to the State. When the brand name drug is Preferred, no Medwatch nor authorization is needed¹. Enter a

DAW code of 6 on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Xerox 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance). Please maintain this Advisory as a reference in addition to any updates that follow.

The Brand Preferred exceptions are as follows:

Preferred Brands	Non-Preferred Generics
Adderall XR	amphetamine salt combo ER
Alphagan P 0.15%	brimonidine 0.15%
Baraclude	entecavir
Copaxone 20mg/ml	glatiramer acetate (Glatopa)
Catapres TTS	clonidine patches
Diastat	diazepam rectal
Differin cream	adapalene cream
Epivir HBV	lamivudine HBV
E.E.S 200mg/5ml Granules	erythromycin 200mg/5ml granules
Eryped 200mg/5ml Suspension	erythromycin 200mg/5ml suspension
Focalin	dexmethylphenidate
Focalin XR	dexmethylphenidate XR
Gabitril	tiagabine
Hepsera	adefovir
Invega tablets	paliperidone ER (<i>Invega is still a non-preferred drug and will require a prior authorization by the prescriber</i>)
Kadian	morphine sulfate ER
Kapvay ER	clonidine ER
Kitabis Pak	tobramycin pak
Metadate CD	methylphenidate CD capsules
Methylin Oral Solution	methylphenidate oral solution
Parnate	tranylcypromine
Pulmicort Respules (all strengths)	budesonide inhalation suspension
Ritalin LA	methylphenidate ER capsules
Seroquel XR	quetiapine ER (<i>Seroquel XR is still a non-preferred drug and will require a prior authorization by the prescriber</i>)
Tegretol suspension	carbamazepine suspension

In the following instance, both the multisource brand and the generic are preferred:

Brand also Preferred (no MedWatch form required)
Trileptal suspension

Preferred generics
oxcarbazepine suspension

¹ Unless the Program has established clinical criteria for the drug. Clinical Criteria can be found by going to the below link:
<http://mmcp.dhmh.maryland.gov/pap/SitePages/Clinical%20Criteria.aspx>.

MARYLAND PREFERRED DRUG LIST

Effective Date 1/1/17

Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid patients.

Note: Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “**(generic only)**”. PDL products that are new to market require prior authorization until they are reviewed. Changes in the Preferred Drug List are highlighted in yellow.
